**HOW'S YOUR HOURGLASS?...Do you waste
time by..Failing to organize hours
available? Task-hopping or lack-
ing "stick-to-itiveness?" Not
setting aside time to get spe-
cial tasks accomplished?
Succumbing to the const-
ant pressure to use time
in unproductive ways?
Not realizing that
time is unique be-
cause its supply
is totally inel-
astic? Wasting
other people's
time? DON
HERZOG of BPS
says benefits of
proper use of
time are services
rendered efficient-
ly, accomplishment of
tasks, development of
good reputation with fel-
low employees and manage-
ment, and increased use of
discretionary time for self-
development. Techniques for
stretching time include knowing
how time is utilized, planning work,
delegating, shortcutting, and pruning.**

HOW'S YOUR HOURGLASS?

SPOTLIGHT ON...JERRY WARTGOW...Coordinator of Research and Evaluation, in R & I. His academic record indicates that he has earned and learned in quite a variety of places. Starting with Wisconsin State University, he proceeded through California State and the University of California, then went via the University of Denver to the International School at Bangkok, Thailand to the University of Hawaii. Impressive?

Jerry's here at GSU to do evaluations of the University, its programs and processes. Hopefully, his stay here will not be of the same quality as his experience with his garden plot. He and his wife, DIANE, wish they had planted rice since theirs was the only garden that didn't drain after the recent heavy rains. Jerry indicates that he feels challenged by GSU. We hope he'll enjoy meeting that challenge.

INSTRUCTIONAL TECHNOLOGY: THE WAVE OF THE FUTURE...The reaction to instructional technology among faculty and students varies from misunderstanding to mistrust, to misuse, but according to the Carnegie Commission's recent report, The Fourth Revolution: Instructional Technology in Higher Education, "The new technology may turn out to be the single greatest opportunity for academic change on or off campus."

ONCE A SCOUT ALWAYS A HELPER...Just ask "Skip" Roberts of CEAS how the Boy Scout of Communications came to his rescue.

A FUNNY THING HAPPENED ON THE WAY TO THE RED LION...The cream station waggon pulled off the road. SANDY CONELY of Coop Ed noticed that OAVE WIGHT, ELAINE STRAUSS, and MEL MUCHNIK piled out of the car, onto the shoulder of 54. Sandy figured it was another of those crazy things that happen on Route 54. And it was. Imagine running out of gas on the way to a luncheon saying "goodbye" to DELORIS SAUNDERS, MORRIS PETERKIN, and DAVE SCHUELKE. Everything came out Okay... BETTY ELLIOTT of R & I allowed herself to be flagged down and got everyone back to GSU and a supply of cars with gas. It shows that Governors Highway is paved with good intentions. (From the looks of things, it also means eventually asphalt.)

PUMP OF THE WEEK...GSU's only male secretary, KEN WERNER of the Business Office, is going to be put in charge of a secretarial pool. The deep end is nine feet with a diving board.

FAZE 1 DEADLINE...All material should be submitted by the end of the day, Wednesday, for inclusion in the following week's issue, to the Office of Communications.

A TISKET A TASKET...Check which wastebasket has written in the bottom "Reports to BOG Central Office."

A ROSE BY ANY OTHER NAME...Park Forest South will remain Park Forest South. The move to change that name to "Nathan" has been defeated. If it had gone through, the lead for this article would have been "Only the name has been changed."

NEW STAFF MEMBERS...A number of units are mailing FAZE 1 to new staff not yet on board to get them plugged in early to the happenings of GSU...new staff members will receive a packet of materials from the Office of Communications which will include some of the general literature about the University. If you require additional copies of FAZE 1 for mailing purposes, call the Office of Communications, Ext. 219-220.

QUOTE OF THE WEEK..."If you get confused, try not to."
